

Leave The Planet

Galaxie 500

You said, it's time to get your clothes on
And you said, it's time to leave the planet
And you said, don't even bring your wallet
And you said, it's time to leave the planet

You said that I could bring my guitar
And you said, It's time to leave the planet
You said that I could bring my guitar
And you said, It's time to leave the planet
