

# She Doesn't Even Know

Gareth Gates

She's like a model  
and i'm not exactly the model type  
we talk everyday  
the most we say is hi and goodbye.  
I feel like a stranger  
but my neighbours i've know her all my life.

I order and call her  
so I can tell her what's on my mind  
would she ever hear me  
and sincerly truly give us a chance  
Would she deny me  
and reply we're better off as friends

Could you imagine what would happen  
if that could ever be  
We could be happy ever after  
writing my love across the sky.  
Finally made her mine  
somebody search my am i crazy  
If I'm dreaming please don't wake me up.

She's outta my league, over my head  
must be losing my mind  
what made me think that she'd  
ever notice me  
she doesn't even know i'm alive (2x)

I stare out the window  
let the wind blow right threw my mind  
I gotta tell her  
I'll write a letter  
can't keep wasting time  
cos some other fella  
undeserving is gonna win her love

it ought to be if ever  
she wants to fall in love  
Theres not a second  
or a minute  
not a single day  
theres not a picture  
of remembering her pretty face

Could you imagine what would happen  
if that could ever be  
We could be happy ever after  
writing my love across the sky.  
Finally made her mine  
somebody search my am i crazy  
If I'm dreaming please don't wake me up.

She's outta my league, over my head  
must be losing my mind  
what made me think that she'd  
ever notice me  
she doesn't even know i'm alive (2x)

If only she knew what I would do  
I wouldn't go she has no blue  
If I could keep her by my side  
She doesn't even know that I'm alive  
She doesn't know that I'm alive

she's outta my lake over my head  
must be losing my mind  
make me think that she  
ever noticed me  
she doesn't even know  
doesn't even know I'm alive

She's outta my league, over my head  
must be losing my mind  
what made me think that she'd  
ever notice me  
she doesn't even know i'm alive (2x)

yeah yay  
she's outta  
i must be losing my mind  
oh ho  
she'll never know
