## **Baby I Will**

## Gary Allan

If he don't dream 'bout you night after night If you don't think that he's treatin' you right If he don't worship the ground that you walk on It's easy to see somethin's wrong

I can't stand to see you cry Over love that just ain't real If he don't love you Baby I will

If he don't whisper sweet words in your ear Things a good woman loves to hear Why can't you see what he's puttin' you through How long can your heart beat feelin' so blue

I can't stand to see you cry Over love that just ain't real If he don't love you Baby I will Baby I will

I can't stand to see you cry Over love that just ain't real If he don't love you Baby I will Baby I will Baby I will
