From Where I'm Sitting

Gary Allan

He asked her to dance three songs ago Now she pulls him closer as the music slows The lights are growin' dim it's just her and him and the band Funny, I used to love this song I though it was our song but I guess I was wrong From where I'm sittin' I can see where I stand

From where I'm sittin' I can see where I stand She's got her head on his shoulder and her heart in his hands Thing's are pretty clear when a fool understands Lord, from where I'm sittin' I can see where I stand

I've never seen her dance like that before Don't think I can take much of this anymore He's no longer the stranger and it looks like I am I always dreamed I'd see that look in her eyes But I never dreamed it would be for some other guy And from where I'm sittin' I can see where I stand
