

(I Wanna) Love My Life Away

Gene Pitney

Yeah I want to love my life away
I wanna love my life away
I wanna love, love, love
Love my life away with you

I want your hugging in the morning
All your kissin' late at night
I want your sweet talk in the sunshine
And holding my hand in the moonlight

Cos I wanna love my life away
I wanna love my life away
I wanna love, love, love
Love my life away with you

Yes we're gonna let the world and all of its troubles
Go right on-a spinning by
We're gonna build one dream upon another
Clear up to the sky

Cos I wanna love my life away
I wanna love my life away
I wanna love, love, love
Love my life away with you

I keep you warm in the winter
Give you cool, cool kisses in the summertime
Walk by your side in the autumn
And in spring bells will chime

Cos I wanna love my life away
I wanna love my life away
I wanna love, love, love
Love my life away with you

[fading]

Yeah I want to love my life away
