## (I Wanna) Love My Life Away

## **Gene Pitney**

Yeah I want to love my life away I wanna love my life away I wanna love, love, love Love my life away with you

I want your hugging in the morning
All your kissin' late at night
I want your sweet talk in the sunshine
And holding my hand in the moonlight

Cos I wanna love my life away I wanna love my life away I wanna love, love, love Love my life away with you

Yes we're gonna let the world and all of its troubles Go right on-a spinning by We're gonna build one dream upon another Clear up to the sky

Cos I wanna love my life away I wanna love my life away I wanna love, love, love Love my life away with you

I keep you warm in the winter Give you cool, cool kisses in the summertime Walk by your side in the autumn And in spring bells will chime

Cos I wanna love my life away I wanna love my life away I wanna love, love, love Love my life away with you

[fading]
Yeah I want to love my life away
