

Colony Collapse

Genghis Tron

In the belly of these dreadful days
What's there to believe?
I plead, "What can I do?"

Don't look ahead
It's all desperate ends
But I do, I do

Love will haunt all life
In time, the world's undone
In time, one death will bind

Right now each mess we're in
Puts us in fate's harsh old hands
In the shadow of those looming days

What's there to believe?
I plead, "What will I do, what then?"

You'll come to fear
Each day, each night
You'll come to fear
Each day, each night
