## I Saw Me

## **George Jones**

For the first time tonight I saw me And I said to myself what a fool He placed a crown on your head Believed the lies, each one you said For the first time tonight I saw me.

Yes, I looked into my eyes
And saw the reason why she cried
Saw a picture of a fool
Who should still be by her side.

For the first time tonight I saw me And I'm ashamed for now I can see Love she gave all in vain I was one, her everything For the first time tonight I saw me.

Yes, I looked into my eyes And saw the reason why she cried Saw a picture of a fool Who should still be by her side.

For the first time tonight I saw me And I'm ashamed for now I can see Love she gave all in vain I was one, her everything For the first time tonight I saw me.

Yes, for the first time tonight I saw me...
