

It Scares Me Half to Death

George Jones

It scares me half to death
To think I almost lost you
It breaks my heart to know
How much I made you cry

And if you'll let me show you darling
I'll right the wrongs I've done
And ease the heartaches I have
Caused in the days gone by

You told me that our love was cold
And then you said goodbye
But I can't love another
I'd be living a lie

It scares me half to death
To think I had forgotten
The vows we made to stay
Together come what may

And while I'm holding you my darling
I'm holding my breath
'Cause just the thought of losing you
Scares me half to death

It scares me half to death
To think I had forgotten
