

## Still Doin' Time

George Jones

Has it been a year, since the last time I've seen her  
My God, I could swear it was ten  
And the ocean of liquor I drank to forget her  
Is gonna kill me but I'll drink 'til then

I've been living in hell with a bar for a cell  
Still paying for my cheating crime  
Oh, And I've got a long way to go  
Still doin' time

Still doin' time  
In a honky tonk prison  
Still doin' time  
Where a man ain't forgiven  
My poor heart is breaking  
But there's no escaping  
Each morning I wake up and I find  
Still doin' time

Oh when your caught me cheating twice  
It's twenty to life in a place  
Where the sun never shines  
And tomorrow you're gonna find me right here  
Still doin' time

Still doin' time  
In a honky tonk prison  
Still doin' time  
Where a man ain't forgiven  
My poor heart is breaking  
But there's no escaping  
Each morning I wake up and I find  
Still doin' time

Still doin' time...
