

# Together Alone

George Jones

She watches movies but he don't  
He watches football but she won't  
They've got a lonely house to hold together  
His Playboy pictures turn him on  
Her heart's so cold and lonely stone  
Get big on and on and on there together.

Together alone together alone  
They're at the house and they're not at home  
Together alone.

No angry words that they'll regret  
They're never fuss or fighting yet  
Sleep side by side but seldom get all together  
They wanna plod outside of time  
With them the maples gathered round  
Someday they'll lie beneath the ground there together.

Together alone together alone  
They're not unlike so many I've known  
Together alone together alone together alone...
