

Wean Me

George Jones

Oh, I've always been a baby when it comes to growing up
And I'm the biggest baby that you've ever seen
I know we've had many problems but if you could still be me
Take this bottle from my hands and wean me.

Yes, you've wondered why I've always had a bottle in my hand
Why I never could give up my childish ways
Well, I'd rather be even with your help the man I'm going to be
Take this bottle from my hand and wean me.

And when I take that first big step I'll walk straight to you
Right into your loving arms that's where I want to be
Take this bottle from my hand and wean me
Right in your loving arms that's where I want to be
Take this bottle from my hand and wean me.
Take this bottle from my hand and wean me
