Desire

Geri Halliwell

I'm a sure-fire pussy cat
I ain't gonna tell you that
I'm giving myself away
You're a real catch that's a fact
I am gonna tell you that
Baby I want you to stay

My fever's high your tide is low Just don't forget to love me No no no no

Whatever you sold me
Whatever you feed me
It's taking me over and over
I'm the cat that can fight it
Whenever I need it
Your kiss kills me with, desire

Young gun you're the one
Lift me up and take me on
Just like you did in my dream
Sweet man I know you can
But I would never tell you that
Baby I'm diggin' your scene

My fever's high let's roll the dice But don't forget I love you No no no no

Whatever you sold me
Whatever you feed me
It's taking me over and over
I'm the cat that can fight it
Whenever I need it
Your kiss kills me with

You're contagious, I'm confusing We can take this anywhere we like it You're amazing, so amusing Your kiss kills me with desire

Whatever you sold me
Whatever you feed me
It's taking me over and over
I'm the cat that can fight it
Whenever I need it
Your kiss kills me with, desire
