

# Dreamed Victoria

Paul Gilbert

When the world has got me down  
And there's no one else around  
Closed my eyes and thought I saw you  
Will you hear me when I call your name

Yesterday I would say  
That I dreamed Victoria  
Is she real, I don't feel  
Like a dreamed Victoria

So I'm talking to myself  
Wondering 'bout my mental health  
But I'm feeling so much better  
There's no way I can forget her name

Yesterday I would say  
That I dreamed Victoria  
Is she real, I don't feel  
Like I dreamed Victoria

Now I'm wondering what to do  
If I'm not imagining you  
So I tried to see you closer  
Asking everyone who knows your name

And they say, right away  
That they dream Victoria  
You are real, but I feel  
Like I dreamed Victoria  
I can't go back to where I was  
Since I dreamed Victoria  
The only reason is because  
I have dreamed Victoria

When the world has got me down  
I no longer hang around  
Got a better place to go to
