

# Something Real

Gin Blossoms

I don't know if it matters  
But i'm sorry that we made such a mess  
Out of Love  
I don't understand the pressure  
Could this day get any better?  
A long way from hard times i Win you again  
The dark roads and hard snows  
How could i know?  
We just make it all up as we go

Chorus:

So give me something real  
That i can lay my head on  
No fairy tales or Dreams  
I'm sick of make believing  
I made a promise long ago  
It all fell apart i don't wanna let go  
C'mon give me something real

I don't know any better  
But i know that i've made some mistakes with your love  
i can't help but think  
it matters  
The illusion finally shatters

A long time gone now to win  
you again time slows hearts  
Froze how could i know?  
I just make it all up as i go...

Chorus:

So give me something real  
That i can lay my head on  
No fairy tales or Dreams  
I'm sick of make believing  
I made a promise long ago  
It all fell apart i don't wanna let go  
C'mon give me something real

I may or may not really know  
It hurts to think it's worse to.

Speak don't let go  
The words i seek won't let go  
A promise lasts forever...

Chorus:

So give me something real  
That i can lay my head on  
No fairy tales or Dreams  
I'm sick of make believing  
I made a promise long ago  
It all fell apart i don't wanna let go  
C'mon give me something real

So give me something real  
That i can lay my head on

No fairy tales or Dreams  
it's over... i'm not what i had left behind  
i might be wrong but i know i tried

C'mon give me something real  
C'mon give me something real  
C'mon give me something real
