

## Feel Good

Girlschool

Let's go party all night long

You wanna feel good, I'll make you feel good  
It only takes a little time  
Come on and show me, get down and dirty  
It only takes a little time

I'll make it happen, Let's make it happen  
Can't sit around to wait and see  
Cause it's the night time and it's the right time  
You know I don't shock easily

Let's go party all night
