

## Bastard death

Gladiator

i feel horrible  
before my own eyes  
i still can see a cold-blooded beast  
killing a live fetus  
i'm dismayed.  
ignorant mankind  
without hearts for own kids  
first feeling - torture death  
dead future without descendants  
child by child - again!

permit crime without effects  
competence for killing  
dumps of children's limbs  
the society of numb drastic laws.

bastard death

why do we end sooner than we have to?  
wasteful loss of hopes  
damned debased mind  
violence on helpless.  
a last season for knowing the youth  
the season of monstrous customs  
forgotten feeling long ago  
made artificial mortality.

wasted development - wasted scream!

i doom all the world  
humanity  
i doom all the professions  
against life human subsistence.  
destroying of self-preservation  
unpardonable punishment  
piece by piece, man by man.

to hear wasted screams!
