

Morbid murdering

Gladiator

steps haunted by fear
roads fall throughing emptiness
a worry own worthless existence
the choking world full of taint

pray!
to feel near days of dead
guess certainty, i see face of hate
pray!

a life expires from the earth
wars, any cry
strolling boxes without feeling
why i've sight?

insanity, mind
indetached components now
ingrained chase to folks
morbid murdering

men's bluntness
ultimate weakness
death on order of a day
desperate ends
planet in black
endless growth of graves
brutal deeds
terrorist crimes
against own breath
everywhere corpse's scent
the world of murders
the rage murdering world
i regret my birth to dead

condemned
space of dead
less spirits
less feeling
