

...and if you falls
break your life from the first stone
you sure don't know
what old and wrong is in your soul
you don't feel loved
all things are so boring for you
it's time to be born
look at stars all will come
all right lives
wait up sunny face
and after all begin
all right lives
live out sunny days
and after all begin

you know we love this our way
it's a way of you 'n' me
you know we love this our way
I've found me in this day
you know we love this our way
it's a way of you 'n' me yeah
this our way
now I know in this day I feel right

don't ask me why
there are things without answers
fill my desires
from a day I was born 'till I say goodbye
and I just know
nobody is here two times
