

Sweet little mouse

Gladiator

Love me babe love me, do
I should want to know all your moves
Let my power penetrate to you
Close your eyes and let me do

I know I want to love and feel it
I know I want to love and feel it now, now, now ...

Draw you in me draw me in you
let's feel the taste of a sticky truth
I want suck your dusty fingers
to gnaw sweaty ears, awake the lull

I know I want to love and feel it
I know I want to love and feel it now, now, now ...

I'll be king of all your mind
we can feel thrill all around
behave like a morning sunshine
come on babe come on love
