

Lights Down

Glamour of the Kill

I feel alive charged up inside i am electrified
Ten thousand volts running through my bones my body's amplified
Hung up on getting down so take me
Hold up I'm just so wild it makes me

We turnin' all the lights down, lights down low
We crackin' up the heat until it burns
'Cause when were getting down, we can burn it to the ground
You always make the right sound
When we turn the lights down low

I'm lust personified, white knuckle ride
The speed of light, you better hold on tight
Like a rush of blood running through my veins
I'm ready to ignite
Lit up!
You set my skin on fire
Turn up!
Let's take this higher and higher

We turnin' all the lights down, lights down low
We crackin' up the heat until it burns
'Cause when were getting down, we can burn it to the ground
You always make the right sound
When we turn the lights down low
The lights down low

Adrenaline inside of me
Inside of you
I feel alive
Charged up inside
I am electrified

Can I get a fuck*/hell** yeah?
(Fuck/hell yeah!)
Let me hear it: fuck/hell yeah
(Fuck/hell yeah!)
All I wanna do is fuck yeah/I just really wanna fuck you!

We turnin' all the lights down, lights down low
We crackin' up the heat until it burns
'Cause when were getting down, we can burn it to the ground
You always make the right sound
When we turn the lights down low

We turnin' all the lights down, lights down low
We crackin' up the heat until it burns
'Cause when were getting down, we can burn it to the ground
You always make the right sound
When we turn the lights down low
