

Lost Souls

Glamour of the Kill

We are the ones you've been running from
And there's nowhere you can hide from us
(You're on the run)
The dead of night and the mood is right
For feeding on your blood
Don't fight it, you can't fight it
Just close your eyes and take it
Soon you will be one of us

You feel the change, it won't be the same
Embrace the poison in you

Don't fight it, you can't fight it
This will be your darkest hour
Don't fight it, you can't fight it
This will be your darkest hour

We are the takers of a thousand lives
The bite is all that matters to us
(We own the night)
The blackened skies wake the undead rise
And we won't stop until the day arrives
Don't fight it, you can't fight it
It's now your way of life
To crave the taste of innocent blood

You feel the pain, you'll never see the day
Embrace the poison in you

Don't fight it, you can't fight it
This will be your darkest hour

Don't fight it, you can't fight it
This will be your darkest hour

Don't fight it, you can't fight it
Don't fight it, you can't fight it

You feel the pain, you'll never see the day
Embrace the poison in you

Don't fight it, you can't fight it
This will be your darkest hour

Don't fight it, you can't fight it

This will be your darkest hour
Don't fight it, you can't fight it
This will be your darkest hour

You can't fight it
You can't fight it
This will be your darkest hour
