

Angel Dream

Glen Campbell

I dreamed you
I saw your face
Caught my lifeline
When drifting through space
I saw an angel
I saw my faith
I can only thank God it was not too late

Over mountains
I floated away
'Cross an ocean
I dreamed her name
I followed an angel
Down through the gates
I can only thank God it was not too late

Sing a little song
Loneliness
Sing one to make me smile
Another round for everyone
I'm here for a little while

Now I'm walking
This street on my own
But she's with me
Everywhere I go
Yeah, I found an angel
I found my place
I can only thank God it was not too late
I can only thank God it was not too late
I can only thank God it was not too late
