Bows and flows of angel hair ice cream castles in the air Feathered canyons everywhere I'd look at clouds that way Now they only block the sun they rain and snow on everyone So many things I could have done the clouds got in my way.

I'd look at clouds from both sides now From up and down and still somehow It's cloud delusion I recall I really don't know cloud at all.

Moons and Junes and fairy squeels dizzi dancing way you feel Is every fairytale complete I'd look at love that way Now that's just another show we've been laughing when you go If you care don't let them know don't give yourself away.

I'd look at love from both sides now From give and take and still somehow It's love delusion I recall I really don't know love at all.

Tears and fears and feeling proud say I love you right out loud Dreams and schemes and circus crowds I'd look at life that way Now old friends are acting strabge they shake their heads they say I'd change
Something's lost and something's gained in living every day.

I'd look at life from both sides now From win and lose and still somehow It's life delusion I recall I really don't know life at all...
