

Oil and Water

Glenn Hughes

Time, keeps slippin' and there's no crime You know there is no
time, it's never too late

Black, you puttin' me on the rack The burnin' red sky will crack,
it's all in your fate

Soon, you're gonna be on the moon The drug lies in the spoon, you
know it can't be

Strain, you gotta live past the pain You know that I go insane,
I gotta be free

Tell me can you see We are just like oil and water Won't you hear
my plea We are just like oil and water
