

Sorry

Glenn Lewis

Look at what a mess I made
If I paid attention, maybe then you might have stayed
Deserted you, in the middle of the night
One to many times and askin' why

Where did all the promises go?
Of love you had, not like you don't hear me though
That's what she said to me
I treated it like it was talk just something momentary

Now she's leaving from me being, neglecting of her heart
How I regret it now and I don't know how
I let it get this bad but now I wish
I had the chance to tell you my baby

I'm sorry, I'm so sorry
I didn't mean to make you cry
Why oh why, I wish that I had the chance
Before you had said bye bye

I'm sorry, I'm so sorry
I didn't mean to make you cry
Why oh why, I wish that I had the chance
Before you had said bye bye

You first left I, blamed it on everything but myself
Girlfriends talking to someone else
Present the picture doin' all I'm supposed to do
Getting close to you

Woke up from my sleep 'cause I couldn't breathe
From my heart being so weak if only my tears could speak
They'd say, it was such a mistake
Still I love you babe, hey babe

And now she's leaving from me being, neglecting of her heart
How I regret it now and I don't know how
I let it get this bad but now I wish
I had the chance to tell you my baby

I'm sorry, I'm so sorry
I didn't mean to make you cry
Why oh why, I wish that I had the chance
Just before you said bye bye

I'm sorry, I'm so sorry
I didn't mean to make you cry
Why oh why, I wish that I had the chance
Before you had said bye bye

Tell me what I'm supposed to do
Now that you left me this way
Friends tell you don't be talkin' bout
Your love oh I can't do without that

Now what am I supposed to do?
Life just helplessly whithers away

Tell me if you would ever have that feeling
Like life itself just ain't have no meaning

I'm sorry, I'm so sorry
I didn't mean to make you cry
Why oh why, wish that I had the chance
Before you had said bye bye

I'm sorry, I'm so sorry
I didn't mean to make you cry
Why oh why, wish that I had the chance
Before you had said bye bye

So sorry, so
So sorry, sorry
