Can't Stay Away from You

Gloria Estefan

Time flies When you're having fun I heard somebody say But if all I've been is fun Then baby let me go Don't wanna be in your way And I don't wanna be your second choice Don't wanna be just your friend You keep telling me that you're not in love You wanna throw it all away

But I can't stay away from you I don't wanna let you go And though it's killing me that's true There's just some things I can't control

Your love is slipping through my hands And though I've heard it all before I know you're telling me the truth I know it's just no use But I can't stay away from you

Hold on to every beat of hope, that's all I ever do Hoping you might change your mind And call me up to say how much you need me too And though you're leaving me no other choice Than to turn and walk away Look over your shoulder, I'll be there You can count on me to stay...

'Cause I can't stay away from you I don't wanna let you go And though it's killing me that's true There's just some things I can't control Your love is slipping through my hands And though I've heard it all before

I know you're telling me the truth I know it's just no use But I can't stay away from you
