## **Gnarls Barkley**

But what did you do?
What did you say?
Did you walk or did you run away?
Where are you now?
Where have you been?
Did you come alone or did you bring a friend?

I need to know this cause I noticed you're smiling Out in the sun, having fun and feeling free And I can tell you know how hard this life can be But you keep on smiling for me

What went right?
What went wrong?
Was it a story or was it a song?
Was it overnight or did it take you long?
Was knowing your weakness what made you strong?

Or all the above, oh how I love to see you smiling And oh yeah, take a little pain just in case You need something warm to embrace

To help you put on a smiling face

Don't you go off into the new day with any doubt Here's a summary of something that you could smile about Say for instance my girlfriend, she bugs me all the time But the irony of it all is that she loves me all the time

I want to be you whenever I see you smiling Because its easily one of the hardest things to do Your worries and fears become your friends And they end up smiling at you

Put on a smiley face
