

Fly Away

Goapele

For you I'd leave, I'd fly away
For you I'd leave, I'd fly away

Every night before I sleep, I try to find you in my window
But you're so very far away and though everyone can see you
But I look at you different sometimes, I wish, you'd shine for me

Oh I, I can feel you, I can't touch you, it's not the same with out you
My world won't spin without you, when I see you you know what I 'll do
Just that I'd like to have you, I'd always have to share you

For you I'd leave, I'd fly away
For you I'd leave, I'd fly away

Sun won't set until you come, I wish, I could be the one
You pull in like a tide for the sea, you disappear I wonder, why?
And I can't wait till goes to night, it's not the same when you 're not here

Oh I, I can feel you, I can't touch you, it's not the same with out you
My world won't spin without you when I see you, you know what I 'll do
Just that I'd like to have you, I'd always have to share you

For you I'd leave, I'd fly away
For you I'd leave, I'd fly away

For you I'd leave, I'd fly away
Baby, just fly away
For you I'd leave, I'd fly away

For you I'd leave, I'd fly away
For you I'd leave, I'd fly away

And now the sun is setting
The stars are almost shining
All day I sit and wait for the moon
