

# Milk & Honey

Goapele

If we had a place to go  
If we had somewhere to be  
Can somebody let it go  
Here's your chance so let it be  
I don't wanna spell it out  
It's between the lines just read  
How the story ends you'll find  
Rock me to sleep

It'll be like milk and honey  
Baby I can tell you want me  
Ooh I can feel your heartbeat  
And the feelings coming over me  
Just lay back, relax, let me blow your mind  
Lets take our time  
Like honey it feels so warm inside

No matter the day  
Your losing the night  
No matter the hour  
I'm telling you now  
Just follow my lead  
I'll open like a flower  
Honey by the nectur sweet  
From the ocean so deep  
On the shores I'll hope we'll meet  
And fit together perfect...

Just like milk and honey  
Baby I can tell you want me  
Ooh I can hear your heartbeat  
And the feelings coming over me  
Just lay back, relax, boy you blow my mind  
Lets take our time  
Like honey it feels so warm inside

I don't want the feeling to leave  
I'm killin em softly  
Never had honey so sweet  
Now that you got me  
Just pull me closer in  
Ooh slowly  
You give me all I need

Just like milk and honey  
Baby I can tell you want me  
Ooh I can feel your heartbeat  
And the feelings coming over me  
Just lay back, relax, boy you blow my mind  
Lets take our time  
Like honey it feels so warm inside

Just lay back, relax, let me blow your mind  
Like honey it feels so warm inside

... ohh lets take our time
