

The Cell

Gojira

All this evil, sanctified
You're not alone, you're not the only one
Overcrowded in your brain
You'll find a way out or you will fall

Get me out of here
I've been lost in the dark
Get me out of here
I'm locked inside me

No control over anything
I'm dying to learn, I'm dying to forget
Overcrowded in my mind
I have to let it go now

Get me out of here
I've been lost in the dark
Get me out of here
Now

Overcrowded in our minds
We'll find a way out, right now
