A Sound I Never Heard

Golden Earring

I'm kicking down the road
I got my top hat on
With my head in overload
I heard a radio song

There was something in the air I think I know it well Watchin' everybody stare You know I never tell

You knocked me to the floor With a sound I've never heard You knocked me to the floor With a sound I've never heard With a sound I've never heard

I was walking down the street
Saw you sneakin' out your house
Now who you're gonna meet
In the criminal hour
Saw you sneak right through the door
You whispered just a word
Then you knocked me to the floor
With a sound I never heard

You knocked me to the floor With a sound I've never heard You knocked me to the floor With a sound I've never heard With a sound I've never heard
