

## God Bless The Day

Golden Earring

In the morning dawn  
When it's not all clear  
All you can hear is the silence  
Of a fairy-like noise far away

In the morning dawn  
When it's not all clean  
All you have seen is the burying  
Of a fairy-like bright early day

The Lord will bless this day  
And our food  
And the weapons of the enemy in the neighbourhood  
The Lord will bless the victory  
Of every fool  
With a gun, thinkin' he can change the rule

God bless the day, God bless the day  
God bless the day, God bless the day

Like one says  
He will bless  
And we will wait  
For what He'll create
