Let Love In

Goo Goo Dolls

You wait, wanting this world To let you in And you stand there A frozen light In dark and empty streets You smile hiding behind A God-given face But I know you're so much more Everything they ignore Is all that I need to see

You're the only one I ever believed in The answer that could never be found The moment you decided to let love in Now I'm banging on the door of an angel The end of fear is where we begin The moment we decided to let love in

I wish

Wishing for you to find your way And I'll hold on for all you need That's all we need to say I'll take my chances while You take your time with This game you play But I can't control your soul You need to let me know You leaving or you gonna stay

You're the only one I ever believed in The answer that could never be found The moment you decided to let love in Now I'm banging on the door of an angel The end of fear is where we begin The moment we decided to let love in

There's nothing we can do about The things we have to do without The only way to feel again Is let love in

There's nothing we can do about The things we have to live without The only way to see again Is let love in

You're the only one I ever believed in The answer that could never be found The moment you decided to let love in Now I'm banging on the door of an angel The end of fear is where we begin The moment we decided to let love in
