

Road To Salinas

Goo Goo Dolls

1. Do you think it'd be okay if your willing to let things go
Would you lay me to die and try to learn what you don't know

*1: I don't know why I got behind the wheel
Sun's in the sky and I was

R: On the road to Salinas
down the road i thought could free us
Ordinary dreams would go, and I would always get back home

2. Take the time and try to find the boy inside my brain
Someone waited out on him and he's trying to get away

*2: I dont know why I feel the way I feel
Suns in the sky and I was

R: On the road to Salinas...

3. See myself with someone else and I just dont know why
When i lay my head to sleep I lay awake and cry

*1: I don't know...

R: On the road to Salinas...
