

# Soldier

Goo Goo Dolls

1. When you came back I knew you'd have a story  
You need someone to ease the pain of living life  
You're like a soldier in the fray seeking shelter  
From all the madness that you've seen, raining down now

R: I know things change, your world has slipped away  
I know things change, you're living like a  
Soldier caught in the fray  
Don't lose your faith  
It's not so cold, it's not too late

2. When you were naive you were so invincible  
And you laughed at anyone and anything that ever got in your way  
But now the mirror shows the change, and you don't see that  
You're sinking back into the crowd, an echo faded

R: I know things change...

\*: And I never thought I'd see  
You living on your knees  
A slave to some disease

That holds you captive  
And you can look inside of me  
But the answers that you seek  
And everything you need

Is all inside you

R: I know things change...
