

# You Know What I Mean

Goo Goo Dolls

It's been a long, dark, lonely hall  
Between the cracks, I can read the scrawl  
It's written down in a crooked rhyme  
You sold me out before my time, you know

But since then I been back down to the end  
I can't believe the things you never said  
I can't explain the words I never found  
My whole world should come crashing down, you know

But you can't sell me out with everything you think about

I think back now I draw a blank, you know but  
There ain't no need to dig the past, you know but  
I don't wanna live my life in a day  
I ain't got no need for this plastic cage

Cuz you don't think about anything I think about

You know what I mean  
You know what I mean  
You know what I mean  
You know what I mean

But now you know for sure you're alive  
Because you, you watched me leave before your eyes, you know I  
I'm afraid to say your name, but I  
I ain't afraid to share this blame because

You can't sell me out with everything you think about

You know what I mean  
You know what I mean  
You know what I mean  
You know what I mean

It's been a long, dark, lonely hall  
Between the cracks, I can read the scrawl  
Find a place that feels like home, you know  
And get some clue to where I'm going, you know but

You don't think about anything I think about

You know what I mean  
You know what I mean  
You know what I mean  
You know what I mean

You know what I mean, oh no  
You know what I mean, oh  
You know what I mean, oh no  
You know what I mean
