

Stay By My Side

Good Old War

I never want to leave when I do
I never want to leave when I do
Every time I leave, you cry
"Stay by my side"

Oh baby, you should know I trust you
And baby, you should know I'll miss you
But every time you leave, I cry
"Stay by my side"

Just because I've gone away
Doesn't mean I'll be gone forever
There's a point in our love
From across the world

I never want to leave when I do
(Don't walk away)
I never want to leave when I do
(Stay with me)
Every time I leave, you cry
"Stay by my side"
