

We've Come A Long Way

Good Old War

I thought I'd learn to behave
But I don't feel I'm acting my age
Once in a while
And though things may not be the same
You helped me feel no pain
All of my life
I wanted to say to you
We've come a long, long way
There's so much to say
Still have a long, long way

You've seen me at my worst
And I've seen you in the reverse
We are equal
And no matter what happens from here
No matter where life ends, my dear
I will be grateful
I wanted to say to you
We've come a long, long way
There's so much to say
We've come a long, long way
