

# Only Love Would Know

Gordon Lightfoot

Does the light of passion still burn bright?  
Only love would know my imagination  
Tells me I'm a pent-up fool in the deep end of the pool  
Is the light of passion burnin' tonight?  
Only love would know, only love would know

She lives on the other side, you wanna know the reason why  
She arrives at promises and you believe in what she says  
Everywhere you go  
Is the light of passion burnin' bright?  
Everywhere you go, only love would know

You think, you've been wronged again  
Oh what a way to treat a friend  
She belongs to other eyes and surely you must realize  
She ain't the kind who would soon step aside  
Pay any dues at the expense of her pride  
Everywhere she goes, only love would know

In the days gone by I came to believe  
Everything is trust, all the rest is dust  
Mother nature, mother dear, listen to us over here  
Are the sounds of laughter ringing true?  
Only love would know, only love would do

She lives on another plane away from the drivin' rain  
She says no, you say yes  
And that's how it should be I guess  
Only love would know

May the light of love surround you tonight  
Everywhere you go, only love would know

You think, you were wrong until  
You learned once and for all it's still  
One more lesson on the way  
Or that is what it seemed to say

She's not the kind who would soon step down  
Not the kind you would try to walk around  
When only a thought would go very well  
You can tell by the touch  
Ah but only love would know

Passion burnin' bright  
Tears of passion late at night  
Is the light of passion burning bright?  
Everywhere you go, only love would know
