## **Only Love Would Know**

## **Gordon Lightfoot**

Does the light of passion still burn bright?
Only love would know my imagination
Tells me I'm a pent-up fool in the deep end of the pool
Is the light of passion burnin' tonight?
Only love would know, only love would know

She lives on the other side, you wanna know the reason why She arrives at promises and you believe in what she says Everywhere you go Is the light of passion burnin' bright? Everywhere you go, only love would know

You think, you've been wronged again
Oh what a way to treat a friend
She belongs to other eyes and surely you must realize
She ain't the kind who would soon step aside
Pay any dues at the expense of her pride
Everywhere she goes, only love would know

In the days gone by I came to believe Everything is trust, all the rest is dust Mother nature, mother dear, listen to us over here Are the sounds of laughter ringing true? Only love would know, only love would do

She lives on another plane away from the drivin' rain She says no, you say yes And that's how it should be I guess Only love would know

May the light of love surround you tonight Everywhere you go, only love would know

You think, you were wrong until You learned once and for all it's still One more lesson on the way Or that is what it seemed to say

She's not the kind who would soon step down Not the kind you would try to walk around When only a thought would go very well You can tell by the touch Ah but only love would know

Passion burnin' bright
Tears of passion late at night
Is the light of passion burning bright?
Everywhere you go, only love would know
