

# Big Mouth

Gorilla Biscuits

Friendship, to you it means nothing  
Time and time again you betray friends  
With lies, and your gossip  
The stories you tell can hurt like hell!

It's your big mouth and it's getting on my nerves  
You know I wish you'd just shut it up  
It's your big mouth and the shit that comes out  
Has nothing to do with what you're talking about

You know I want to trust you but I can't  
Your word's not given, it's lent  
My advice to you, is to start somewhere  
Why don't you shut the fuck up now

It's your big mouth and it's getting on my nerves  
You know I wish you'd just shut it up  
It's your big mouth and the shit that comes out  
Has nothing to do with what you're talking about
