

It's Over

Gorilla Zoe

You make a commitment,
And don't wanna deal wit it.
They take full advantage,
And leave you stuck real sick.
Now, your love is fragile,
I ease your heart to break.
And the next was nothin different.
Gotta learn from my mistakes.
I know just how you feel,
You feel like givin up,
Got no more love to give.
Cause they don't use it up.
You gave your heart away.
It took you just a tail.
Say you only made me stronger now so I don't even care
Listen here.

Just wanna let you know, I don't even care no more.
Yeah its over, its oovverrrr. I'm over you.

Maybe understanding, is what your looking for.
Looking through the window, when love don't close a door.
Sometimes you gotta give, when you don't get nothin back.
First you gotta love you for someone doin thats a fact.
I know just how you feel, you feel like givin up.
Got no more love to give. Cause they don't use it up.
You gave your heart away.
It took you just a tail.
Say you only made me stronger now so I don't even care
Listen here.

Just wanna let you know, I don't even care no more.
Yeah its over, its oovverrrr. I'm over you.

Feels like a heart attack.
When your left standin there.
When you had your heart set,
When book come turnin there.
See life don't owe you nothin.
You'll realize it isn't fair.
When someone says they love you.
But the truth is they don't care.
I know just how you feel, you feel like givin up.
Got no more love to give. Cause they don't use it up.
You gave your heart away.
It took you just a tail.
Say you only made me stronger now so I don't even care
Listen here.

Just wanna let you know, I don't even care no more.
Yeah its over, its oovverrrr. I'm over you.

I gave you all I had to give.
You took my love for a weakness.
I'm tired of dealing with your shit.
Its over and done with, its over and done with.

Just wanna let you know, I don't even care no more.
Yeah its over, its oovverrrr. I'm over you.
