

Something To It

Great Big Sea

1. I'm sorry if I ruined your day
I really hope that you understand
I'm a million miles away
Looking for a place to land

2. My father phoned me yesterday
Your time has come, well done my son
Tried to think of what to say
When words can't heed all they got

R: I don't know how I got here
There must be something to it
I think i need some time alone
To work my way through it

3. The moon is in the sky tonight
Not very warm but it sheds some light
Ask me now and I just might
Let the morning come and tell me if its right

R: I don't know how i got here...

4. Soon initial bliss will pass
This precious time might be your last
Like dew upon the morning grass,
Good intentions can vanish with the sun

5. I'm sorry if I ruined your day
I really hope that you understand
I'm a million miles away
Looking for a place to land

I'm a million miles away
Looking for a place to land
