

Anyway I Can

Great White

I took a look around
It's time to shake this town
It's bringing me so down
Hey, yeah, I'm on my way

So tired of people's greed
And how they make you bleed
When they got all they need
But tell me, "Boy, you going to pay"

Cutting loose
Slipping from the noose
Loud and proud
Dancing on a cloud
If there ever was a time that time is now

Going to do it anyway I can
Going to make it or break it anyway I can
Going to take it anyway I can
It's my life in my hands I hope you understand

A friend told me today
If it keeps on this way
He's going to make a play
And do the big goodbye

Seems everywhere I look
The taking has all been took
And then someone writes a book
Telling me it's going to be all right

So naïve
I really can't conceive
How people lie
Just waiting around to die
Looking up for answers from the sky

Going to do it anyway I can
Going to make it or break it anyway I can
Going to take it anyway I can
It's my life in my hands I hope you understand

No, no, no, no
Going to do it
