

Gonna Getcha

Great White

Slow blues can turn her on
But she's a whole lot of woman when the band rocks on
Watch her move for the backstage door
The show may be over now but she's going to get some more

She says, "I know what I want, I know just what I need"
She says, "You got nowhere to run, I'm going to get you"
She says, "You got nowhere to hide, I'm going to get you"
I'm going to get you down"

Now it's late but she don't care
Don't you know there's got a whole lot of waiting till we can make it next year
She knows she knows it's hit and run
But she wants to ride a rocket until the midnight sun

She says, "I know what I want, I know just what I need"
She says, "You got nowhere to run, I'm going to get you"
She says, "You got nowhere to hide, I'm going to get you"
I'm going to get you down"

She gets what she wants, she gets just what she needs
She says, "You got nowhere to run, I'm going to get you"
She says, "You got nowhere to hide, I'm going to get you"
She says, "You got nowhere to run, I'm going to get you"
She says, "You got nowhere to hide, I'm going to get you"
I'm going to get you down"

Get, get, get you down
I'm going to get you down
