

Hold On

Great White

Staring out my window, see their faces they can't hide
Strangers from a daydream, running rabid pass me by
I'm just one man caught in a world's confusion
Look for a way out, can't find no easy solution

But I'll try to make it, all that I need, don't say die

Hold on, hold on, got to hold on one more
Hold on, hold on, got to hold on one more
One more day
One more day

Been around, I've seen it all, heard all the lies
Sure I've had my blue days but got no time to cry
The makers, the takers, that never give back
They got me running, their dogs on my tracks

But I'll try to make it, all that I need, don't say die

Hold on, hold on, got to hold on one more
Hold on, hold on, got to hold on one more
One more day

But I'll try to make it, all that I need, don't say die

Hold on, hold on, got to hold on one more
Hold on, hold on, got to hold on one more
Hold on, hold on, got to hold on one more
Hold on, hold on, got to hold on one more
