

Lowdown

Great White

I hear them talking
It goes on all the time
They say you're a cheater
I know you crossed that line

Don't you try to deny it
Don't you sell me no lies
So, honey, what's the story?
Who's the other guy?

What are you going to do?
I'm bound to find out
What are you going to say
To make it go away?

Can you explain what the hell is going on?
Give me the lowdown (lowdown)
Don't play no game, this time I need to know
Give me the lowdown

Does he have what I don't?
Does he touch you like I do?
Do you feel the fire
When he's pushing right on through?

What are you going to do?
I know that it's true
What are you going to say
To make it go away?

Can you explain what the hell is going on?
Give me the lowdown (lowdown)
Don't play no game 'cause you know I got to know
Give me the lowdown
Give me the lowdown, honey

If you're going to act that way, it ain't going to do
I got a bad, bad feeling, woman, all the way through

Can you explain what the hell is going on?
Give me the lowdown (lowdown)
Don't play no game, I got to know

Can you explain what the hell is going on?
Give me the lowdown (lowdown)
Don't play no game, woman, don't you play no game
'Cause I need to know, I want to know
Give me the lowdown
Give me the lowdown
You hear me?
Give me the lowdown
