

## Mistreater

Great White

Something about the way she walks  
The way she wears her hair  
Something about the way she talks  
She makes her meaning clear  
Animal grace, the angel face  
She gets it all for free

You'll be sorry, believe it  
She used to put that on for me  
Fire's in her eyes but eyes can lie  
Blinded by the light of the stars

She's a mean mistreater, and you just can't leave her alone  
She's a mean mistreater, no, you can't leave it alone  
She's a mean mistreater

We came to town in seventy five  
From somewhere way back east  
Whole lot more to staying alive  
Than they tell you about down on main street  
Took our place, lost in space  
Two more dreamers in town

You know the story, believe it  
And now she chooses cold company  
Fire's in her eyes but her eyes lie  
Listen, mister, take it from me

She's a mean mistreater, and you just can't leave her alone  
She's a mean mistreater, no, you can't leave it alone  
She's a mean mistreater, and you just can't leave her alone  
She's a mean mistreater, no, you can't leave it alone  
She's a mean mistreater

Fire's in her eyes but her eyes lie  
Listen, mister, take it from me

She's a mistreater she's going to treat you so bad  
She's a mistreater  
She's a mean mistreater, no, you can't leave it alone  
A stone trick teaser, no, you can't leave it alone  
She's a mean mistreater, no you can't leave it alone  
She's a mean mistreater, now she's got to leave it at home
