

Moonshine

Great White

Late at night when the music's fading
It's cold outside but my love is burning
I need you now it's driving me crazy
Without your taste I can't face the day
Lord I know I must confess
I just feel like such a mess

I call you moonshine (so fine)
You go down easy and you get me high
Moonshine (she's mine)
I got to do my time

Morning comes and I'm all alone
I can feel the chill still in my bones
I tell myself it's like doing time
My addiction to you is my only crime
You got me under your spell
I'm going mad oh can't you tell, oh!

I call you moonshine (so fine)
You go down easy and you get me high
Moonshine (she's mine)
I got to do my time

I call you moonshine (so fine)
You go down easy and you get me high
Moonshine (she's mine)
I got to do my time

I call you moonshine (so fine)
You go down easy and you get me high
Moonshine (she's mine)
Honey you taste so fine

I need my moonshine (so fine)
You go down easy and you get me high
Moonshine (she's mine)
Honey you taste so fine

I need my moonshine (so fine)
I call you moonshine (she's mine)

Honey you taste so fine
Honey you taste so fine

I need my moonshine
